in the event of the race meeting running ahead of time, the organisers reserve the right to bring qualifying and start times forward and this will be communicated on an ongoing basis via the PA system.

Once this lap is completed and all cars are on the grid the 5 Second Board will be displayed. The red lights will then be switched on. Between 2 and 7 seconds, the red lights will be switched off, signalling the start of the race.

No grid marshals will be provided so take careful note of your start position, both before and during the start procedure.

Cars that fail to maintain their correct grid slot and fall behind the last car must start the race from the back of the grid or from the pit lane under the instructions of the pit lane marshals. A penalty of exclusion will apply for breach of this rule.

Any driver retiring during a session must leave their car and move to a place of safety until the session has ended. Drivers must not leave the area as they must be present to move their cars to Parc Fermé immediately they are instructed to do so by the officials.

15. Awards/Podium Presentations

These vehicles are dispatched by Race Control from pre-determined positions on the circuit to remove stranded vehicles from areas considered to be not dangerous enough to require a Red Flag or Safety Car. Competitors should be aware that the use of Yellow and/or White flags may indicate that a Fast Intervention Vehicle could be in use in the zone they are approaching.

The Drivers of the Fast Intervention Vehicles are experienced, and they will normally only be dispatched in areas where oncoming traffic has a good long lead in view of the situation. The Fast Intervention Vehicles will also be used to quickly remove vehicles during Safety Car Periods.
